### Foreword by the Chairmen

#### Dear Readers.

In 2021, it was not only the ongoing pandemic that continued to present us with particular challenges; the high inflation and the sharp rise in the construction costs index also had a substantial impact on our day-to-day business.

Through specific adaptations and adjustments to internal processes and in the contact with our clients as well as our business partners, our companies have succeeded in adapting to the situation in the best possible way. A high level of flexibility and the necessary resoluteness were the basic prerequisite for this.

For more than 190 years, Grazer Wechselseitige Versicherung has stood for stability, security and reliability. Particularly in times of rising commodity and energy costs, the aim is to demonstrate this in particular towards our clients and business partners. Individual support and the development of sustainable solutions have always been our overriding premise and are in demand more than ever.

The success of this strategy is also proven by the history of Grazer Wechselseitige Versicherung which has developed from a regional fire insurer into an international group with 18 subsidiaries in Central, Eastern and South-East Europe. The business model incorporates not only the insurance sector. Grazer Wechselseitige also operates as a reliable service provider in the financial and real estate sector at national and international level. The successful merger of Bankhaus Schelhammer & Schattera and Capital Bank to form Schelhammer Capital Bank AG, which offers considerable added value for our clients, should be particularly highlighted here.

In the past financial year, the GRAWE Group posted a growth in premiums totalling 7.8% in the insurance business; this was supported by the increase in the indemnity and accident insurance of 10.1%. Earnings from ordinary activities amounted to EUR 135.0 million; the Group's profit amounted to EUR 100.3 million. Despite the ongoing challenges in connection with COVID-19 and the strong price rises in virtually all areas, the GRAWE Group continues to be on course for success.

The same also applies for Grazer Wechselseitige Versicherung in Austria. Premium income increased by 6.8% and despite a strong increase in the areas of storm, mains water and fully comprehensive claims, earnings from ordinary activities amounted to EUR 72.4 million and a profit of EUR 52.9 million was generated.

In this respect, we would like to express our special thanks to our highly trained employees. They are the driving force in our company and fundamentally responsible for our success. We also owe it to their flexibility and their commitment that we can emerge stronger from the COVID-19 crisis and look to the future with optimism. Together, we have used the opportunity to drive fundamental digitalisation projects forward and to make our processes more flexible and more efficient.

In addition, we would like to thank our clients for their loyalty and the trust that they have shown in our company. We are particularly delighted that in this connection we were presented with the "Recommender Award" of the Financial Marketing Association of Austria (FMVÖ) in 2021 and thus for the 14th time in 15 years. Grazer Wechselseitige Versicherung came out top again in the category "Insurances nationwide" and was thus once more the most recommended insurance in Austria in 2021. In the past financial year, we were also awarded the seal of quality for "Excellent customer orientation".

The careful handling of resources has the utmost priority throughout our companies, which is why we are putting our faith in sustainability in all areas. This applies both in capital investment and in the area of building and refurbishment of our properties. Also with regard to the reduction of CO2, we are making a fundamental contribution with our own photovoltaic system to supply our data centre, to name just one of the many measures already implemented. As Grazer Wechselseitige Versicherung, we are also conscious of our social responsibility. We support a large number of initiatives, events and institutions in the areas of health, environmental protection, education, art, culture and sport. The latest project that we are sponsoring is the project "Klimaneuzeit die 24H Challenge" ("A new age for the climate – the 24-hour challenge") sponsored by the province of Styria and which is a collaboration between Quantuum, the Wegener Center Graz and the International Institute for Applied Systems Analysis.

In summary, Grazer Wechselseitige Versicherung was able to make very good use of the past financial year and can look back at a gratifying result. It has always proven to be a group with a long tradition and constant growth. We owe this to our clients, business partners and our employees whom we would once again like to offer our sincere thanks.

Yours sincerely,

Clas Plemery

Yours sincerely. Othmar Ederer

## OPTIMISM CREATES A FUTURE. LET US SHAPE IT TOGETHER.

In a few years, GRAWE will be celebrating its 200th anniversary. Throughout this long history, our company has regularly had to cope with turbulent times. This was also the case in 2021, because the pandemic, which we had hoped to have overcome, continued. And yet, like in the previous year, the GRAWE Group was once again able to generate a good result.

The key to our lasting success: A culture that puts its faith in respect and entrepreneurial commitment and a consistent orientation to the requirements of our clients. But in particular also in the dedication of our 5,155 employees. A special "thank you" for their commitment with which they have maintained the high level of proximity to the customer that is standard at GRAWE, despite the trying working conditions and in many cases also difficult personal circumstances during the second year of the pandemic.

This diligent service and an optimistic look to the future have always been part of our corporate culture and the most important component for success. It is reminiscent of the founder of GRAWE, Archduke Johann of Austria. His guiding motto still shapes the work of GRAWE to this day: "In the unity of many, lies the strength that creates good. To contribute to it is the duty of everyone."
